Dear Moms

Mostly, Moms work and help everyone in the family. They look after the needs and comfort of everyone but they take little care of themselves.

When you ask a mom about their favorite dish, the obvious reply is - "What everybody likes".

Moms are early risers and the last member to sleep in the family.

Moms cannot afford to be sick if they are unwell they won't even rest.

So, Me Time & Why?

- Motherhood is the toughest job, no doubt its Rewarding
- Moms need ME Time to manage stress
- Me Time Refuels, Rejuvenates, and Refreshes
- Me Time helps you to connect to yourself...
- ME Time is now much needed because time and the generation have changed

Thank you

Harsha G Ramaiya

Parents Corner

How to keep my child Motivated always?

Self talk.

Children should say this daily.

Thank you God for Everything.

I love myself.

I am very confident.

I will try my best to do Everything.

- Sack race
- Roll the tyre

Story time

- The Greedy dog

Activity of the month

- Yoga day

WRITING AS A COGNITIVE SKILL:

Writing is rather different from other movement skills in that it is language-based and involves learning rules specific to our language system. For example, we write from left to right, the main bodies of our letters sit on a line, and we use spaces to separate one word from the other

- Dr. Swati Popat Vats, in the book *Ms. Pencil and her Team*, available on Amazon.

Right Age

We are strict with age criteria, underage children will not be given admission under any circumstances, so do co-operate for the same.

The Admission forms for Small Wonders Pre Nursery for the academic year 2025 - 2026 will be available from the Small Wonders office.

Age criteria: Pre Nursery: 2yrs & 8 months completed by 1st June'25

As, we begin this new chapter, I want to remind everyone that our school is committed to providing a supportive and inclusive environment for all students.

Our faculty and staff have been working tirelessly to prepare for the upcoming term and we can't wait to share our enthusiasm with you.

School is where we go to learn new things and make friends.

Thank you
Krinaba Zala

Parents Corner

Parenting is a tough & tiring job.
From where to get the energy.
Well, I have a key.
Me time, ME.
Me over everything.
Give at least 15 minutes - of ME time to yourself and don't feel guilty at all because this ME time is your boost.

- Follow the pattern

Fine motor skills

- Squeezing lemon with Squeezer
- Button a shirt

Sports time

- Balancing the book
- Make a pyramid

Story time

- The Greedy Dog

Activity of the month

- Balloon party

Why No Competition -

This Early-Age Competition is killing the freedom of blossoming.

Children up to age 8yrs do not understand the sense of winning or losing and most important they cannot accept failures...

Competitions from an Early age lead to unnecessary stress & pressure on kids.

We, request the parents to think about this & decide the best of our children.

Concrete

Pre-nursery is the foundation of scholastic education. Hence, we believe that the foundation should be concrete.

So we emphasize the basics, rather than just introducing written work and just completing it.

**AUGUST
EDITION**

The Wonder Press

- Folding the paper
- Setting spoons in order

Sports time

- Football
- Hopscotch

Story time

- The Hare and the tortoise

Activity of the month

- A visit to a Garden

DISADVANTAGES OF SCHOOLING AT AN EARLY AGE

- The children find it hard to cope with their academics.
- Young children become slow learners.
- They get a complex seeing other students, who can cope with their studies.
- Their basics remain unclear.
- They are sometimes troubled by their parents to cope with their studies and they develop negativity.
- Due to unnecessary pressure childhood goes for a toss.
- They don't like studying and stay away from academics.
- Studying instead of fun becomes a burden for them.

Pre-writing skills

Pre-writing skills are essential for young children to develop before they begin writing. These skills lay the foundation for future writing abilities and are crucial for academic success.

Benefits:

- **Hand-eye coordination**
- **Finger dexterity**
- **Grip and grasp**
- **Understanding left to right and top to bottom**
- **Better academic performance**

Being a teacher is a deeply rewarding profession, but it also comes with its unique set of challenges. Teachers play a critical role in shaping young minds, fostering a love of learning, and preparing students for success in the world.

While the impact on students' lives can be incredibly fulfilling, teachers often face long hours, demanding workloads, and sometimes low pay. Finding a balance between work and personal life can be a constant struggle, but the rewards of teaching can far outweigh the challenges.

A good teacher can inspire hope, ignite the imagination, and instill a love of learning.

Thank you

Hency vaghani

Parents Corner

If I could give my child three things,
it would be,

- The confidence always to know their self-worth,
- The strength to chase their dreams
- The ability to know how truly, deeply loved they are.

Activities

Gross motor skills

- Sweeping with a broom
- Go on a colour hunt

Fine motor skills

- Hammer ball
- Wearing socks and shoes

Sports time

- lemon and spoon
- Hockey

Story time

- The Hare and the tortoise

Activity of the month

- A visit to a balvatika

STAY FIT

- Get about eight hours of Sleep each night.
- Do some form of exercise every day: run, walk, stretch & Play Play Play.

STAY SAFE

- Know your Complete name, Parent's phone number & Address
- Do not talk to Strangers

Why Print letters are taught before cursive.

- 1. Limited use:** Cursive is not as widely used in everyday life as it once was, making it less of a practical skill.
- 2. Print handwriting:** Print handwriting is often more legible.
- 3. Mostly all the books have print letters,** so children read print letters more often than cursive.

The relationship between school and teacher is a complex and multifaceted one. Schools provide the institutional framework within which teachers operate, offering resources, support, and a structured environment for education.

Teachers, in turn, are the key agents of learning, responsible for implementing the curriculum, guiding students, and creating a positive learning environment.

One who inspires, guides, enlightens, motivates and touches lives forever.

Thank You
Riya Shah

Parents Corner

What to do if my child is upset?

Touch and Talk Theory.
Hold your Child's Hand.
Hug your child Tightly.
And most important.
Talk to your child.

- Visit to a grocery store

ADVANTAGES OF ADMISSION AT THE RIGHT AGE

- The child remains positive as he/she can cope with their academics.
- The concepts are clear.
- They enjoy their childhood because of no parental pressure.
- Their grasping power is good.
- They share a good bond with their parents.
- Study is fun for them. They take interest in their studies.

Disadvantages of Rote memorization

Rote memorization is a process of learning through repetition without understanding.

रटा मार ✗

- **Lack of understanding**
- **No contextual learning**
- **Limited retention**
- **Lack of engagement**
- **Lack of creativity**

The specific nature of the relationship can vary depending on factors such as the school's educational philosophy, the teacher's experience and expertise, and the school's administrative structure.

However, effective schools and teachers typically share a common goal of providing quality education to students.

Here are some key aspects of the relationship between school and teacher

A person who uncovers hidden treasures and touches lives forever.

- Puzzle

Sports time

- Hurdle race
- Tunnel crossing

Story time

- A thirsty crow

Activity of the month

- Visit to a garden

Quality relationship with children

We, maintain the lowest possible Teacher: Student ratio.

This maximizes the opportunities for children to develop strong connection with the teacher.

The center has a

“Behavioural Management Policy” that respects the rights of all children to feel safe & special.

Understanding concepts

Builds Foundation for Future Learning

- **Establishes a strong foundation:** Understanding concepts in the early years lays the groundwork for future learning.
- **Prepares for more complex concepts:** Foundational concepts help children understand more complex ideas later on.
- **Develops a love for learning:** When children grasp concepts, they develop a love for learning that can last a lifetime.
- **Makes learning more meaningful:** When children see connections between concepts, learning becomes more meaningful and relevant.
